CORE COMPETENCIES

- Structural & Forensic Engineering
- GIS Systems (QGIS, Esri ArcMap)
- AI-Integrated Education
- BIM Modeling (AutoCAD, Revit, SAP2000)

LANGUAGES

Spanish - English: Native, 100%
Technical Bilingual

EDUCATION

B.S. in Civil Engineering (Structures)

Tijuana Institute of Technology (1996–2006)

U.S. Credential Evaluation by AERC

Diploma in GIS Analysis

IMPLAN Tijuana (2013–2016)

Diploma in Pedagogical Training

SEBC (2002–2004)

Civil Engineer and University Researcher with over 30 years of combined experience in structural engineering, public infrastructure management, forensic expert evaluation, and geospatial analysis applied to urban development. Proven leadership in directing multidisciplinary teams and securing urban development funding. Pioneer in integrating collaborative Artificial Intelligence, technical English, and Mandarin Chinese terminology into higher education engineering programs.

MILESTONES & INTERNATIONAL RESEARCH

Academic Outreach in Europe, the U.S., and Mexico:

- **Accepted Speaker:** *QGIS User Conference 2026* (Laax, Switzerland | Oct 2026). Geospatial analysis of urban infrastructure and social impact.
- **Invited Guest Speaker:** *Budapest University of Technology and Economics - BME* (Hungary | Oct 2026). Lecture on built environments and pedagogical innovation.
- **Invited Speaker:** *Faculty of Architecture, UNAM* (CDMX | Aug 2026).
- **Speaker:** *Infrastructure Management & GIS Conference, ESRI* (Palm Springs | Oct 2024).

ACADEMIC & EDUCATIONAL INNOVATION

Adjunct Professor | TecNM Campus Tijuana

2025 – Present

Courses: *Structures I & II, Dynamics, Highways, Surveying, Sustainable Development, Resource Optimization Models, and Construction Processes.*

- **Cutting-Edge Pedagogical Model:** Creator of an innovative educational framework for civil engineering and architecture students, incorporating Artificial Intelligence assistants as collaborative partners in reasoning, research, and complex problem-solving.
- **Technical Multilingualism:** Enhancing the global profile of students by systematically integrating specialized technical English and key Mandarin Chinese terminology for the construction and infrastructure industries.

PROFESSIONAL & ENGINEERING EXPERIENCE

Specialized Contractor & Consultant | CAZ Consultores

2010 – 2024

Lead for official expert assessments, forensic engineering, and structural consulting.

Project Manager Officer (PMO) / QA/QC | CLAVE USA & SEG

2023 – 2024

Quality auditing and management for cross-border projects (San Diego / Monterrey).

Head of Architectural Projects & Georeferencing | IMPLAN Tijuana

2013 – 2016

Geostatistical structuring of Urban Infrastructure Master Plans. Secured over **\$300M MXN (\$15M USD)** in federal funds for the municipality.

General Resident Engineer | TEDECON (Palacio del Mar)

2006 – 2010

Operational coordination of 1,000+ workers in luxury high-rise construction. Applied forensic engineering and Lean Manufacturing, recovering a 6-month delay and generating savings of **\$43M USD**.
